Dear FOI Applicant,

Thank you for your freedom of information request received in this office on **9 December** 2025 in which you asked:

***'Reviewing the road casualty statistics for the last couple of years, it does not appear likely WMP is on track to deliver the targets in the Vision Zero commitments made by the WMPCC in the last or previous election campaign***

***Can you please :***

- Advise on the status of the Vision Zero delivery plan (ie does it exist, how / when last revised, etc.)***
- Forward me a copy of the current delivery plan***
- Advise on how this plan is routinely reviewed and checked (eg. via quarterly checkpoint meetings or whatever ? ) and what role is in charge of such meetings and oversight.'***

In response to your request, I can confirm that the delivery plan is publicly available here: [Regional Road Safety Action Plan 2024-2030](#) . It was published in November 2024, and covers the period 2024-2030. Whilst all members of the Road Safety Partnership are signed up to the plan, please note that the document is a Transport for West Midlands document.

Under section 21 of the Act, we are not required to provide information in response to a request if it is already reasonably accessible to you. However, as a goodwill gesture I have included a summary from the latest panel paper:

*Until July 2025, the West Midlands Road Safety Partnership convened as the Regional Road Safety Strategic Group. The PCC was the chair of this group, and had been for two and half years. It was decided the governance structure would change, so there would be an operational group and a strategic board, to progress the Regional Road Safety Action Plan. Both groups will meet quarterly moving forward, with the aim of eliminating fatalities and serious injuries on our roads. There will be representatives in each group from the Office of the Police and Crime Commissioner, West Midlands Police, West Midlands Combined Authorities, West Midlands Fire Service and the seven local authorities.*

*The Operational Partnership Group (OPG) will report to, and receive guidance and assistance from, the Strategic Partnership Board (SPB). Operational officers will be members of the OPG. The OPG will provide operational direction for road safety activity aimed at achieving the road casualty reduction target and long-term mission for Vision Zero, and ensure the region delivers an evidence-led approach to road safety informed by local and regional datasets. The OPG will also identify threats and opportunities relating to the delivery of the Road Safety Action Plan 2024-2030, and*

*provide operational advice to the SPB in response to queries.*

*Senior representatives from each organisation will be members of the Strategic Partnership Board. The core focus of the SPB will be to conduct oversight of road safety performance in the West Midlands Combined Authority region and provide proactive guidance and assistance to the OPG. The SPB will review current and emerging challenges for road safety, proposing evidence-based activity, to support delivery of regional and local strategies and action plans.*

If you require any further information I would suggest you contact Transport for West Midlands.
